

January 28

The fool hath said in his heart, There is no God. (Psalms 14:1)

From the standpoint of reason alone, when we see the immensity of creation, its beauty, order, harmony, balance, proportion, and diversity, can we doubt there is a Creator? Effects are produced by causes. How Shortsighted are those who boast of human skill and intelligence while attributing to mere chance the uniformity and harmony of nature. The proof of God's workmanship is all around us.

Psalms 139:14

Color the picture

God created all things; microscopic, small, your size, bigger and bigger, and something as big as the universe. Follow the directions in each box.

Draw & color something that is tiny.

Draw & color something that is as big as you.

Draw & color something that is as big as your family car.

Draw & color something that is gigantic.

The **CAUSE** in a sentence is what is happening (the action).

The **EFFECT** in a sentence is what happens as a result (the reaction).

Match the cause on the left to its effect on the right.

CAUSE

_____ The fish swam to the top of the bowl.

_____ The balloon popped.

_____ We went to the beach.
