*Before the mountains were brought forth, or ever thou hadst formed the Earth and the world, even from everlasting to everlasting, thou art God. (Psalms 90:2)*

Moses, in this Psalm, tells us God always existed; he had no beginning. This is not easy to understand, because we are used to all things beginning at some time. Human minds cannot really understand that time has no beginning or end, just as space has no end. We do know, for certain, that God always existed, and that the Logos was the first being God created. Isaiah 57:15

The lifespan of animals today does not compare to the lifespan of God. Color the animals and name them in the boxes below. Research the approximate age these animals live to be and write that age in the smaller box.
